

Preemie Family

PREEMIE LIFE

Roxanne Jean Holster

Photo Credit: Amanda Holster

Gestational Age at Birth:
26 weeks, 2 days

Weight at Birth:
1 lb. 12 oz.

Time in NICU:
96 days

Proudest Moment:
Getting to hold my precious girl for the first time at three days old.

PARENT TIP:

Embrace and celebrate the smallest milestones and always remember to smile!

SEE MORE:

Go to www.preemieworld.com late July to read Roxanne's full story.

ADVOCATE: Group Strep B Awareness

Many preemies are born due to a variety of infections. Awareness is key for parents in order to be able to protect their baby in utero and in the days, weeks and months after birth. With this in mind, **July is International Group B Strep Awareness Month**. Learn more from the international organization **Group B Strep Support** here: <http://www.gbss.org.uk>

PREEMIE FREEBIE: Group Strep B in Numbers

PremieWorld provides a number of free handouts to be used in the NICU and beyond in its "[Freebies For You](#)" section of the website. This month's freebie is **Group Strep B in Numbers**. "As July is awareness surrounding Group Strep B, our friends at Group Strep B Support have an excellent resource that shows important stats," comments **Deb Discenza, Founder of PremieWorld, LLC**. "While these numbers relate to the United Kingdom, they show the

reality that this is something parents and professionals should be thinking about in the NICU and at home."

TOOLS AND RESOURCES FOR THE PREEMIE COMMUNITY

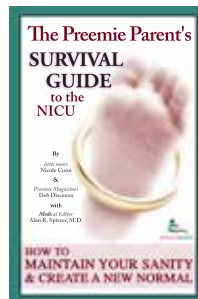

TERM:

Rollercoaster

Rollercoaster (Deb's Take): You will discover in short order that being on the rollercoaster is simply a matter of life in the NICU. It's like breathing. And just as quickly as a breath comes and goes, you can experience something very drastic to something wonderful and vice versa.

Rollercoaster (Nicole's Take): Within the first 24 hours I hear the term rollercoaster about a hundred times. If I hear the term one more time, I will scream. First of all it is an erroneous term. The rapid descents into illness are much more terrifying than the 215-foot drop at Magic Mountain. The ride is not a thrill of a lifetime. It is terror heaped upon anxiety. The term is apt only in so far as the inability to regain equilibrium and the great desire to vomit on a daily basis. I wish this were less of a rollercoaster and more of a merry-go-round.

SUPPORT:

The Gift of Life

After having a premature baby boy, **Rosie Moore** saw a need for reliable NICU support. So she formed **The Gift of Life** to help provide support to families in a variety of ways, understanding that parents' stress level can directly correlate to depression, anxiety and PTSD and affect the development of their infant.

Established:
2015

Outreach:
Orlando, Florida, USA with plans to go national.

Website: www.thegiftoflife27.org

Programs: Admission care packages, discharge packages, NICU baskets for the families, Premie Mentor program, a NICU Care Guide e-book on the website, NICU Visits and more.

PREEMIE GENIUS:

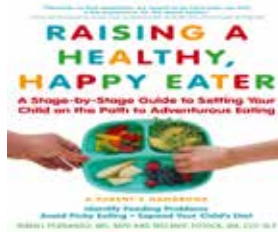

Book: *Raising a Healthy, Happy Eater*

by Nimali Fernando, MD, MPH and
Melanie Potock, MA, CCC-SLP

Whether a preemie is 36 weeks or 22 weeks, one thing all preemies tend to have in common are feeding challenges. In *Raising a Healthy, Happy Eater*, Fernando and Potock have created a guide that takes parents across the feeding spectrum from birth on forward and detailing it in a developmental sense, in a sensory manner and more. Preemies get lots of attention throughout the book and the authors even delve into the topics of "Failure to Thrive" and feeding therapy which is very helpful.

And don't forget the numerous extras on the book's website too: a free toolbox of downloads and the Kitchen Club full of free preview videos with great suggestions:
www.ParentingIntheKitchen.com

AFTER THE NICU:

Inappropriate Questions About Your Preemie

Sadly, we live in a society where an infant or toddler tethered to medical equipment or seeming different physically or behaviorally in any fashion invites people with no sense of decency to ask inappropriate questions.

Preemies, unfortunately tend to fall prey to these unbelievably rude questions and comments: "She's so small!" or "What's wrong with him?" or "Does she have disabilities?" or "Is he going to be normal?"

Your answer? A look of silent surprise and then just stare at the person. If they don't get the message, then walk away without saying a word. *They don't deserve a response.*

SHARE YOUR TIPS:

What inappropriate questions have you endured?
How did you handle them?

PREMIEWORLD'S "PREEMIE SHOWER"

PremieWorld has launched a monthly **Premie Shower!** Each month we will be picking *one* NICU to receive donated items.

This month's product is the book **Go Premies!** by **Andy Male** (www.gopremies.com) a book that celebrates famous premies in history and is fascinating for all members of a preemie family.

Go Premies! will be donating 10 copies of its book to one lucky NICU!

We will select one NICU from our "Premie Family for Professionals" list by 7/22/16 at www.bit.ly/PremieFam4Pros
